Top spots to string a hammock | Tropical North Queensland

Top spots to string a hammock

13 May, 15 by [Fiona Harper](#)

Is there anything more relaxing than swinging in a hammock strung between palm trees on a beach? The caress of a cooling sea breeze on sun-kissed skin? No we don't think so either. The tinkle of ice in a tall glass filled with lashings of fresh lime, muddled mint, a dash of rum and a splash of sparkling water? OK, you caught us – that's a sneaky way of confessing to a mojito obsession.

In Tropical North Queensland we like to think we've perfected the art of hammocking. It helps that we have an unlimited supply of obliging palm trees to swing from! Enjoy some of our favourite hammocking spots.
